Túlio Ribeiro dos Anjos

Full Stack Developer

Campo Grande, Brazil | Email: mail@tulio.org | Phone: +55 67 9 9266 0804
Portfolio: tulio.org | Status: Open to remote work

Technical Profile

Senior back-end developer with 12+ years building enterprise systems. Expert in legacy modernization (.NET Framework to .NET 8), cloud integrations (AWS), and high-performance databases. Strong mentorship experience. Fluent in Portuguese, professional English for technical collaboration.

Core Competencies

- **Back-end:** .NET 8, C#, Java 11, REST APIs, Entity Framework

- **Databases:** SQL Server (T-SQL), MongoDB, query optimization

- **Cloud:** AWS Lambda, Docker, Azure DevOps CI/CD

- **Integration:** Webhooks, ETL workflows, secure HTTPS systems

---

Professional Experience

Software Engineer | BairesDev LLC (Remote) | Jun 2022 – Present
- Built AWS Lambda services (C#/.NET 8) for Shopify inventory sync with automatic error retries
- Created high-speed image processing API handling 2K+ requests per minute
- Modernized Java monolith to Spring Boot REST APIs using JPA and Hibernate
- Designed Azure DevOps pipelines for automated testing and deployments

Full Stack Developer | Geoi2 Tecnologia (Remote) | Aug 2019 – Jun 2022
- Replaced legacy JSF system with Angular 13 micro-frontends and Spring Boot backend
- Developed Java CLI tool to automate database setup and ETL using Pentaho Kettle
- Compressed JSON payloads by 90% with gzip for MongoDB data ingestion - Enforced HTTPS encryption for all client-server communications - Mentored 3 junior developers through code reviews and pair programming

Previous .NET Roles (Various Contracts) | 2013–2019
- Delivered government compliance systems using C#/.NET Framework 4.5 and

SQL Server
- Upgraded legacy ASP.NET applications to WebAPI services
- Collaborated with cross-functional teams via Slack and video calls

---

Education

B.S. Computer Engineering | Anhanguera Uniderp | 2009–2013
- Thesis: Weather prediction system using Python and Neurolab neural networks

---

Certifications

- Oracle Certified Professional: Java SE 11 Developer (2021)

Technical Environment

Languages: C#, Java, SQL, TypeScript
Tools: Dapper, Spring Data, Postman, Pentaho
Databases: SQL Server, MongoDB, MySQL
